When she was three years old she was singing that tune. By the age of twelve she began singing in State Gospel Conventions, on the radio, benefit concerts, Country Gospel Contests, hospitals retirement homes. For three years she was a regular at Renfro Valley, Ky on the young country show. She has had venues in 8 states has been to Nashville Tenn. Branson Mo. The greatest asset versatility, is her ability to play by ear as well as read notes with her Fiddle Mandolin. As well as, being able to sing pure country for all types of audiences, she stands as a role model entertainer for all ages. With talent such as JenneyLynn's you would never expect her goals to be anything other than to become a famous singer musician, but not for the profits to herself her family only. As unbelievable as it sounds, her goals are to spread the word of the LORD to help others learn to be obedient to the call of God in their lives. With the world being so confusing complicated these days, very few entertainers are truly equipped to satisfy the needs of their audience. JenneyLynn is just the artist, talented willing to work as hard as needed, especially if it is for the good of others. It would be a shame not to support God given talent such as her ability to become a blessing to all through her music. We do not believe that JenneyLynn's music has to be promoted with sex, drugs, alcohol, or violence. We believe that there is plenty of wholesome music available and intend to be a role model for all ages that visit this site or go to hear JenneyLynn sing.
