

Mp3 Ken Nunoo - Fire & Ice

[DOWNLOAD HERE](#)

A cd for that special someone. A combination of Rhumba Catalana, Samba, Reggae, Jazz, Cumbia, Rap 6 MP3 Songs ELECTRONIC: Dance, LATIN: General Details: I am composer and musician and specialize in making music. I have written over 150 musical compositions as of 12/31/2003 and own the copyright to all of them. Making music is my natural talent and I write all kinds of musical compositions; rap, Jazz, reggae, rock, latin beats, new age classical. When you listen to my music whatever you hear was written and played by me. I am a one person band playing various instruments to integrate them into a song. The keyboard is my specialty. My background is that of a combination of computer science and music. I had my degree in computer science specializing in software development, and for many years worked as a programmer analyst consultant for many firms, while at the same time was involved in many musical extra-curricular projects. I had knowledge and skill of many programming languages which was the backbone in developing various application software for many large firms in the New York City area. Hence my musical compositions are an integration of art and science. So let's go for a ride and check out my albums. Note: This album can be downloaded at:
