I should have named it "Unintentional Lullabies" because people tell me they like to listen to it when they are going to sleep or relaxing or cooking dinner. I believe it is so relaxing because only very nice people worked on it from rehearsing the tunes to doing the artwork. It just has a sweetness about it and I'm glad. Maybe my next cd will be HOT, but this one is just plain sweet, but with no calories." I hope you will like it, too."
