Gospel blues mostly about going through some hard stuff and finding a light in it. The amazing vocals of Mark Williams NZ rock star mixed with the earth and mud of biblical images. Some of Sydneys best musos interlaced with Peter Steins melodies 9 MP3 Songs GOSPEL: Country Gospel, URBAN/R&B: Rhythm Blues Details: These songs are especially spiritual and were written at a time of trauma in my own life - so IF they reach out and touch someone's heart then light will have emanated from darkness and that can't be a bad thing. To talk about the trax ONE MORE MILE is about the hope in better times, times of love in the world. The train in the song is the age old metaphor in blues for movement, maybe to a better place. TENDERNESS is a blues jazz song pointing out the world always needs some of that TLC especially now. RIGHT SIDE OF THE KINGDOM features my slide guitar playing and MARK WILLIAMS voice, I sorta think it works well. THE WONDER OF HIS LOVE in contrast to the other songs on this offering is an uplifting happy song rejoicing in the creation. Thats enough - if you find this site and 2nd if you like the songs then a great miracle may occur...3...you might want to order a copy and then we'd both be happy take care
