There is nothing better than listening to banging tracks and have your spirit fed at the same time.

When asked what was the overall goal for this project W. B. said, "I just produce what God gives me at the time. I really don't have the time to devote fully to music but my life is devoted to ministry so when there is something that God lays on my heart that I can put on a track, I make it do what it do." W. B. is optimistic about this album reaching lost and seeking souls. W. B. says that 3-D Records will be producing more projects real soon so be on the look out!
