Radiohead Blonde Redhead should consider this download. Details: BD: We have been working on

Queen Of Venom for two years. It's been a transitional period, which is reflected in the music. There is a raw emotional flavor to this album that, after writing more than two dozen songs, we chose the ones that stood apart and captured a realness: the internal battles about love, loss, spirituality, self-awareness, mortality, angst, anxiety, and how precious life is. ----- Blind Divine's

art music may be a thirty second interlude designed to lure the listener into an otherworldly dreamscape, where floating rhythms, ethereal vocals, haunting piano, or effected guitars become a palette of many hues, a sonic texture that conjures a visual aesthetic, while others embrace a mix of moody beats and emotional vocals, where the art music becomes the theme of an enigmatic dream that is as strange as it is inescapably familiar in a delicate and abstract world, imbuing an ultra awareness of emotion, love, hate, fear, pain, life, death, elation, or faith, and inviting the imagination to ruminate.
