A soulfully jazzy twist on the blues, ranging from just plain elegant to elegantly naughty. 17 MP3 Songs
BLUES: Jazzy Blues, BLUES: Blues Vocals Details: Together as Burley Maple, Amber, Jim and Rich make some of the most original music on the scene today. Where else can you find one album that goes from a romantic song like "Waking Up Next to You" to the sensuous "Lover MIne" to the elegantly naughty "Daiquiri." There's even a song about angry monkeys flinging poo! Now there's a song topic you don't hear every day. Amber, Rich and Jim are all Parrotheads, and though their music may not sound like Jimmy Buffet, the spirit of Margaritaville is deeply soaked into all of their songs. Amber is the awesome voice of Burley Maple. Her voice is a combination of the sophistication of Diana Krall, the passion of Alanis Morissette, the playfulness of Sheryl Crowe, and the bluesy soulfulness of Joss Stone all rolled into one. One recent reviewer listened to the song "Daiquiri" and said, "There's got to be a brass pole in her background somewhere!"
