We're a very eclectic power-trio with a diverse dynamic range and a love of vintage and modern mixtures. 11 MP3 Songs ROCK: Hard Rock, ROCK: Progressive Rock Details: Together for well over 2 years now, the members of Dane have survived several personnel changes to get to the incredible line-up they have now. They are a three-piece based in Central Texas, and an established live show around Dallas, Austin, San Marcos, Waco, and Temple. The members all met at Baylor University in 2003 and began jamming just for fun. Due to the variety of musical tastes and influences, their jams began to turn into very unique, very listenable songs. Beautiful melodies are backed by grooving guitar and a solid rhythm section. With influnces ranging from Josh Homme to Muse and the Black Crowes, the result is what can only be described as "pleasing," and they have managed quite a reputation for entertaining live crowds. In early 2005 Ashlyn Dane's two former members, Alex and Dave, left for other ventures. Since then, Ashlyn Dane has become Dane and many new songs have been introduced. Dane's musical writings are a unique breed and keep an audience wanting more. Things never get boring as each song has the heart and soul of a true music fan.
