ELECTRONIC: Dance, POP: with Electronic Production Details: Hjortur is an Icelandic artist living in Denmark and has worked as a composer and producer for many years. Humanize is Hjortur's first solo album. Electronica is the word - the music is the landscape, and it will take you places you've never been before! "Humanize is an electronic album with a strong dance music influence, but it manages to avoid sounding like bad mainstream disco music due to the addition of non-dancey, experimental and dark/sinister electronic elements. World, World, World and Chemical Message are excellent dance tracks that prove that the dance genre isn't always inane and mindless, it can be creative and well-written too. Another favourite track of mine is the title track, a really amazing, catchy dance/electropop song, which also appears in a totally different style on the album "To My Futur" by Hjortur. - Kim Harten, Bliss Aquamarine (UK) Visit hjortur.dk for more!
