This stunning band features vocals by Lin Chen and programming by Lee Ryan with production by Ryan Coseboom of Halou (formerly of Netzwerk Records). For fans of Delerium, octeau Twins, Portishead, Claire Voyant, Assemblage 23, Curve, VNV Nation and Iris. "This is upbeat, female vox-lead, synthpop music that seems destined for club play. At least "Escaping Light" and "Hypocrite" seem well-suited for that setting. Both "Megaphone" and "Artifact" are excellent, very impressive slow/mid-tempo tracks. Musically, "Repeat Defeat" is perfect. I love the melody. This is a very impressive demo. Very much worth your time and attention! - Jason Baker, synthpop.net
