

Mp3 Johnny Sizzle - Folk: Power-folk

[DOWNLOAD HERE](#)

Really different but rockin. Acoustic but hard 10 MP3 Songs FOLK: Power-folk, ROCK: Punk Details: JohNNY SiZZle first started as a crazy acting rock band interviewer on TV in Canada and being around some of the artists it must've got him interested in performing music live as well as putting out recordings. SiZZle has always looked at his song writing as a personal journey where creativity first comes before cash. He did his first live show in 1993 in Winnipeg, Manitoba, Canada. In his live shows JohNNy SiZZle has this bad habit of making himself look and seem stupid but he's playing a game with you and you can realize that by the end of his set. Since JohNNy SiZZle's first show in '93 he's based himself in Montreal, Toronto, and Vancouver respectively doing live touring all over Canada and various U.S. states like New York and Pennsylvania. SiZZle has another bad habit of over impulsively hitchhiking anywhere, hanging with street kidz, and living lives of the unconventional. Mr.J SiZZle is also a totally out super-queer bi-sexual and dresses unusually and wears make up on his face when ever he feels. You can really hear the chaos of the cute girl in the voice he's got. listen then. Today JohNNy SiZZle has released 5 recordings in Canada with some of the releases getting sold in the UK and mainland Europe. His current record label is huskyrecordsout of London, England. SiZZle would like to tour the west coast in the next couple of years. Expect to see a new release cummin' in 2004 tentively title "Evil Transformation".
