This project with exceptional vocal arrangements, family harmonies, and music beats, will certainly capture the attention of young people of all cultures and backgrounds, as it inspires and encourages them with the message of Jesus Christ. The cross-cultural reach of this project is also evident in the selection "Jesus Is Coming Soon", part of which is sung in Spanish with guest musician Juan Escovedo (brother of Sheila E. and son of latin legend Pete Escovedo) on percussion. Citing musical influences of Out of Eden, Kim Burrell, Jennifer Knapp, The Clark Sisters, and Rebecca St. James, this project contains 10 tracks of original material ranging in variety and style that will find favor with Contemporary Christian, Traditional gospel, Christian Inspirational, and Holy Hip-Hop audiences alike. With many of the selections penned by the group themselves, they desire that their music be a blessing to people all over the world, and that they might make a difference in someone's life. This desire is evident in their music as each selection is laced with the Word of God. Coming on the heels of this

release is their DVD "Live From the San Francisco Christian Center", also available here on CDbaby.
