Twelve radio ready alternative rock gems with giant hooks that could snare a the most discriminating listner. 12 MP3 Songs ROCK: Modern Rock, POP: Power Pop Details: NYC based Kimon (pronounced kee-mon) puts the heavy political fare of his second album "Discorporated" on hiatus and cleans house by presenting twelve pop friendly, guitar driven, previously unreleased tracks; Four newly written songs (tracks 3, 4, 7, 8) and eight songs written between 1996 and 2001. All songs written, and produced by Kimon, and recorded and re-mixed at his personal studio "Ultrasceine Recording," and mastered by Alan Douches at West West Side Music. According to Aquarian Magazine's "First Listens" column, Kimon is "different than what is out there these days since a lot of what's new sounds very much the same... he's willing to experiment with his musical style, and that's what makes him interesting." In the words of the Tri-City News, "he knows exactly what he wants his songs to say...his straight forward, muscular lyrics speak for themselves".
