Classic Country 11 MP3 Songs COUNTRY: Traditional Country, COUNTRY: Country Pop Details: Kitty Rose has been performing her own brand of original classic country over the past several years side-by-side with covers from the likes of Patsy Cline, Tammy Wynette and Loretta Lynn. Kitty is the country reincarnation of singer/ songwriter Katharine Chase, a familiar name among California music lovers. Katharine has performed throughout the State, opening for such notable artists as Hootie The Blowfish, Arron Tippen, Elliott Smith, Mary Lou Lord, Exene Cervanka, The Blasters, Chuck Prophet, Red Meat, 4 Non Blondes, Amanda Marshall, Third Eye Blind and Penelope Houston. The San Francisco Bay Guardian once described her as "a lady with an incredibly huge voice that embraces an intriguing dichotomy of toughness and tenderness.... Her voice is rich with the rhythms of a life's travels and experiences...". Now living in a log cabin in the small rural community of Hopland, California, between riding horses, herding cattle and other ranch chores, she's spent the past year putting together this special CD of classic originals for you. With the help of country/alt-banjo artist Woody Simmons and special guest artists including Julie Wolf, Michael Papenberg and Monica Pasqual, we think it's just about the best little country CD we've heard in years. YEE HAW!
