The songs on this CD are truly original works that come from the heart. "I can remember when I was a young boy around age 10, sitting with my dad and grandpa playing music every Sunday afternoon in our livingroom. We would go camping and sit around the campfire and sing and play. We would call ourselves gypsies because we circled the campers and would play music around the campfire. Many people would gather around and listen. These roots have helped develop the styles and format for my music. I hope you enjoy these songs as much as I have enjoyed putting this collection together."
