Be careful what you wish for, and be cautious of what you crave. The pleasure that you take can be the levee that you break. 2 "Holdin' On" It's easy to lose your sense of purpose, and forget who you really are. Living in this world is so very challenging. Dig deep, and find the strength to be your best. Keep up the fight! 3 "Independent Man" To him, you are a prize. A trophy on the wall...a notch on the belt. When he's fooled you in to believing he cares, he'll leave you for another conquest. Pity him, because in the end he'll be sad and afraid as he dies alone. 4 "Keepin' It Real" When was the last time you stopped, dropped everything you're doing, and took a good look around at this big rock that you live on - floating in the middle of absolutely nowhere. This earth is amazing! See it from the eyes of a star. 5 "Don't Freak Me Out" Deep inside of everyone there is a door. If someone knocks on that door hard enough it will open, and a demon will emerge with a thirst for destruction and evil. Be wary of who you knock upon. 6 "Dyin' To Live" Remember the last day of school? How about your last vacation at the beach? These are the days when everything goes right, and you realize how much fun living can be! 7 "When I Found You" I can see you in my mind. You're everything I want to be. I try and try, but I can never catch up to you. The voices I hear are my own, and they tell me I can never be young and happy again. They call you my "inner child," but you're really my old friend...I want to be with you again! 8 "My Friend Is Gone" You were so close to my heart. Now, that you're gone I realize more than ever how much I really loved you. I'm bitter...I'm angry! I don't understand why you were taken from me. What hurts the most is knowing that I must accept your death, and move on with my own life...I'll always look for you in the sky. 9 "Mr. Sun

Shine" He's the hardest working guy you'll ever know. There is none more committed, and his dedication has no rival. He works all day, every day. He's life...he's power... he's Mr. Sun Shine! 10 "It's Out There" Where will you be when it hits? When you here that song, or read that line that makes time stand still. It's the moment you realize your life is slowly slipping away, and the time to live your dreams grows shorter everyday. Take a deep breath, and see your ideal future...it's out there!
