Phil Robbins and Now Generation lead praise and worship in a local church in Michigan and engagements on the weekends. This is the second release from Phil Robbins where he has incorporated the sound of his praise team. "This CD was a church project at first, but after a while, people just wanted to get involved. Before I knew it, this project was reaching out to the entire state!" He adds, "I just wanted to put out a praise and worship CD with songs that I could hear other churches singing in their services." Phil has taken piano lessons and has been trained in classical and contemporary styles. "This CD is definitely what I would call contemporary gospel... I think it has the potential to reach the world for the Lord!" said Phil. Now Generation travels with Phil wherever God opens a door for them to minister. If you have a church that you would like to take the praise and worship to the next level, they are available for booking.
