Hopeless Romantic love songs that capture your heart that wont let go and keeps you comming back time and time again. 7 MP3 Songs POP: 80's Pop, EASY LISTENING: Crooners/Vocals Details: Music is my ultimate passion. As a child i always wanted to sing and dance for who ever would listen. Im a natrua ham in front of an audience. I love to touch peoples emotions and take them to a better place in thier lives if only for a few minutes. This world is very hectic so we all need some chill time and music will do it for you. I started playing piano and singing at 8 years old,gospel mainly and then i got turned on to the Temptations! No stopping me then. I was in any singing group i could get into,street corners, doo waps and all. I remember (dont tell anybody about this,just between us) cutting class in jr high going to the auditorium with 10 -20 other class mates and doing private shows until we got caught. The word got out and there was no stopping us with shows after that. Its in my blood,heart mind and soul. You wont be dissapointed,check it out!
