Lush, melodic, melancholic and engaging. 10 MP3 Songs POP: Dream Pop, POP: Ambient Pop Show all album songs: All in All Songs Details: Originally from Chicago, Pete Pagonis grew up playing drums in rock bands. Raised on a big dose of the Beatles, Led Zeppelin and Frank Sinatra formed Pete's early influences. Relocating to California Pagonis continued playing in bands as a drummer. After a long stint with the local band mrs. god which later released the CD "essentially" under the name lazy. Pete played with former eels bass player Tommy Walter in both Tely and Metromax. Walter later released a record under the name Abandoned Pools which had two co-writes with Pagonis that continue to get placement in TV and film. After a tour fell through playing drums for Brendan Benson of the Racontours. Pete started to reassess. Now on his own, Pagonis is putting out music as the Soft Patches. The mix of odd time signatures and simple melodies are both attributed to his drumming background and love of "simple lines intertwining" to quote Nigel. Dreamy, lush and sometimes meloncholic are all words that have been used to describe the Soft Patches. I'm just trying to find as much of my own musical voice as possible. Everyone sounds like someone to some extent. No plans to tour as of yet. But plenty of recording continues to happen. The reviews are starting to come in and the word is good. Listen for yourself.
