

# Mp3 Tony Lowe And Alison Fleming - All Of The Above

[DOWNLOAD HERE](#)

Pop Rock concept album 16 MP3 Songs POP: British Pop, ROCK: Progressive Rock Details: Imagine a place where a world of music, colour and scent combine, surrounding and engaging you, the audience, in a glorious tri-sensory experience. Each composition is influenced by the colours in the visible spectrum corresponding with a mood that it is experienced when listening to the songs which move through different musical styles; including rock, pop, acoustic and orchestral. Most people are aware of the influence of colour on our moods and emotions, the subjective power of a particular image, and the manner in which music can move us deeply. Combining these with a sense of smell produces a powerful sensory experience. Listener reviews: "Very cool, love those chord changes, very original very, very original, sounds awesome. Alison's singing gives it something really other worldly. It's all good, I'm very impressed, \*listenable\* \*intelligent\* music and the Production is 1st rate 1st rate!" - Miklos Power - Sydney, Australia. "I have just heard the soundtrack for 'All of the Above'. Fabulous!!! I hear lyrics that move the soul. Great lyrics in fact! And wonderfully uplifting music, rising to a new level of awareness for pop." - Philip Petersen - San Francisco, USA. "Words can't describe the beauty of this album. Every track is simply stunning and so powerful. Intelligent music that moves you. Music from the heart of a wizard." - Ashling - Uxbridge, UK. "Wow - when is the world tour? The CD is beautiful. I love it. It has got me back into listening to music again too - years of teenage mega amps had made me fond of peace and quiet. I am so glad that all those years of working on the project have finally come to fruition - it has definitely been worth the wait." - Isobel Hunt - Notts "Thanks so much for the CD. I am enjoying it. The kind of music we like to listen to; easy listening and good driving music. I listened in the car a bit and now at home. It is very good, much talent put into it. One song was on my mind last night; the first one. It has a catchy tune. I think we might enjoy them better when we know all the words. John said he would have to

listen closer with headphones to hear some of them. We have really enjoyed it. Thanks." - Pat Hooke - Missouri USA "Thank you so much for the CD - It is so cool. I have been listening to it all weekend, it is amazing. well done xxx When is the live event then? Can't wait!" - Fiona Hunt - Wales
