The PPC Challenges: There are many PPC providers, companies and networks that can provide you with PPC search results that you can make money from on your site. The challenging questions are: Which of these PPC companies search boxes and results should you display on your website. Wouldnt adding more than one PPC search box to your site make it look cluttered and unprofessional? Not all PPC providers are equal. Some pay more per click than others. What if one PPC provider has a \$5.00 bid on a keyword and another has a \$2.90 bid on the very same keyword. If the visitor searches the PPC search box that displays the \$2.90 keyword, you just lost more than \$2.00 per click. Isnt there a way to have only one PPC search box on a website that aggregates and combines PPC search results from multiple PPC providers. Isnt there a way to display PPC results with the most profitable/highest paying bids at the top. How can we display keyword-specific PPC content, aggregated and combined from the top five PPC providers. Tags: im, plr
