Details: About the CD... 'wide.awake' is a celebration of life, of defeating inner demons, and making it through the times in life and love. About April... April is driven by love, and her music truly shows this. Though she may only be 25, she had to grow up fast; whether it was dealing with her parents divorce as a child or her fathers death as an adult; through it all she found herself. Music has always played a huge role in April's life, whether it has been with the violin, private teaching, or composing her own songs on the piano. She pours her heart and soul into every note. It is here that April takes you on a journey through her heartache and love; her dreams and fears. Aprils second album, 'wide.awake' is filled with love and hope, something that is lacking more and more in today's music. Her gentle music hypnotic drum beats paired with her angelic, yet haunting voice make for a truly touching experience. At times her songs sound almost melancholy but the message usually remains the same, full of hope. Aprils voice is a rare mix of folk and pop music with a hint soul; it is here that she truly shines. With the ability to hold your attention at a mere whisper, it is clear that she has genuine gift for song and storytelling. Aprils creativity is astounding, her energy endless. When shes not writing and recording new songs, she is hard at work designing the artwork for them, making candles and jewelry for family and friends, or spending time with her amazing husband, her inspiration for many of her songs. New and delightful things are constantly spinning out of April and she has no plans on stopping anytime soon.
