Soothing original compositions, for piano, wood/silver flutes, vocal. 11 MP3 Songs FOLK: Gentle, WORLD: Native American Details: "I certainly have no regrets buying Breath of Prayers III. We seem to share some sensibilities, and I very much enjoy the unexpected, jazzy turns." "...absolutely love your cd. We play it over and over. It's gotten more "air time" at our house than any other cd since you gave it to me. The writing and performing are beautiful and profoundly moving. I particularly am haunted by "Water Please". That simple refrain says it all--not just speaking to the need to care for water, but for the deep sense that we are here to care for all of the earth.." "beautiful so soothing..." Breath of Prayers III (Original Compositions by Ej Mills Brennan, for Piano, Wood/Silver Flutes, Vocal) has the same soothing meditative quality as 'II', with the addition of piano accompaniment on every track, and vocals speaking in regard for Earth issues.
