"When one thinks of blues meccas, the heydays of Chicago and Memphis immediately come to mind.

Then there were revivals in San Francisco and London in the late Sixties . . . 12 MP3 Songs BLUES:

Chicago Style, BLUES: Funky Blues Details: Roseleaf Records sophomore release, JIMI BOTT Bott Paid

For! Featuring Jimi (Drummer for The Fabulous Thunderbirds, Rod Piazza The Mighty Flyers etc...) and

Portland's Finest, is a modern day Super Session. Recorded all on one rainy night in Portland (imagine that), this CD represents just a small portion of this huge well of talent and hopefully is just the beginning

of what will become a series that will bring Blues From The Great NW to the rest of the world. Blues

enthusiasts will be sure to recognize the great PAUL DELAY master of the harmonica and vocalist

extraordinaire. While displaying the best of tradition and finesse Paul is one of the few Harpists who have

also truly created his own cutting edge phrasing, sound, style and flavor that has yet seen rivalry. DAVE

Long Distance KAHL also an Oregonian, has been nominated for blues bassist of the year by the

Cascade Blues association at least five times. A staple in the Paul Delay Band for 3 years he is never

sick at sea and by far one of everyones favorite bassists to play with in town. He actually listens to blues

for enjoyment! Originally hailing from Eugene OR Aaron AC PORTER , has been an integral part of the

Portland blues scene for 24 years. His influences are clearly BB and the likes of Duke Robillard, Ronnie

Earl Hollywood Fats. Though many guitarists aspire to these great players and the high standards they

set, few come as close as Porter to obtaining the intensity they project. Long time CA transplant

SUBURBAN SLIM has been in Oregon since 1981. During this time he has astonished crowds with his

unbelievably soulful voice while baffling other guitarists with his crushing, mellifluous and seemingly

endless ideas on his instrument. Phil Wagner aka Suburban Slim is a true modern day guitar

slinger/songwriter with soul! Unbelievably MARCO SAVO has never been showcased on any recordings until now. Originally from Pacific Grove Ca. Marcos self taught Guitar approach stems from a world of stone cold jazz and the purest of blues. Swinging with an innate sense of rhythm, time and taste he is fueled by influences such as Jr. Watson, Chris Cain, Tiny Grimes Cannonball Adderlay. Truly a master of his six string instrument and equally talented on four, here he works double duty taking on the bass chair for The Suburban Slim Band. Also on the harp and vocals is JIM WALLACE. Originally from Newport Ca. he is heavily steeped in Chicagos electric blues of the 50s and 60s. All would agree that Wallace is Portlands finest embodiment of the great Little Walter, George Harmonica Smith Walter Horton to name a few. Also featured here are his skills as a seasoned songwriter.
