

Mp3 Last American Virgins - Not So Secret Plan

[DOWNLOAD HERE](#)

A return to what once made rock n roll so great: cocksure swagger, raucous guitar and unforgettable melodies. 11 MP3 Songs ROCK: Classic Rock, ROCK: 70's Rock Details: Last American Virgins represent a return to the basic ideals that once made rock music so great. They believe in innocence -- that of a softly sung passage. They believe in virtue -- that of a sparse and thunderous drum beat. They believe in the purity of power chords and the creation of timeless songs. Above all else they believe that if you listen closely, the sound you will hear is the sound of your rock and roll soul being saved. Band members Jason Klug (vocals), Jesse Salucci (drums), Bradford Tukey (guitar), and Matt Hampson (bass) have performed in various local and regional venue including sharing the stage with national recording artists EVE6, Fountains of Wayne, and Tantric. While these young men are new to the name Last American Virgins, they are by no means virgins to the stage. You may question their devilishly good looks. You may even question their virginity. But listen to the music or see them live, and you cannot question their talent for songwriting, their drive to succeed, or their charisma in winning an audience. The Last American Virgins have arrived, and they will not be denied.
