An eclectic blend of music styles ranging from ballads and praise and worship, to rock and jazz, communicating that God is real and that we can know Him in a personal way. 10 MP3 Songs GOSPEL: Contemporary Gospel, ROCK: Folk Rock Details: Bryan has had an interest in music since he can remember. He took piano and saxophone as a young child and had an interest in the drums, however his parents were not wanting to endure the loud banging. It was not until after graduating from Valley Forge Christian College in Phoenixville, PA, that Bryan picked up the guitar. It was love at first strum. Valerie's love of music came at a very young age with her first public singing performance of "Edelweiss" at a church service at the age of 5. She started piano lessons at age 8, violin at age 10, and discovered her love for songwriting in high school. Valerie continued her passion for music at West Chester University in West Chester, PA., receiving her degree in Music Education. Bryan Valerie met in Claymont, DE in 1998, where they were involved with a church plant as well as a Christian music group. During this time, Bryan was an associate pastor and received training in sound reinforcement. Valerie was an administrative assistant and also traveled with the music group. As with all of life's experiences, this time in Delaware had its great moments as well as...well, its not so great moments. In 2001, after the music group disbanded, Bryan and Valerie were married. Marriage brought some time to step away and enjoy life. It also brought time to defrag their brains and work through some of the not so great times. It was a checking the foundation, faith sharpening, do we really trust you God, time. During this time, we began to realize that we enjoyed singing and making music together and that we had some songs growing in us. We began to share those songs with others and with those song sharing moments, came lots of encouragement that this is what we are here for. We do have a purpose. We do trust God. We will move forward. We don't know all the answers but we do know where to go to get them and it is a growing

experience.
