Serious Acoustic Succotash 12 MP3 Songs FOLK: Folk Pop, POP: Folk Pop Details: Short Story Long

a tale of two songwriters OK, you've found us. Whether it was on purpose or you just happened to stumble upon us doesn't really matter. All that matters is that you are hereWelcome! We are Frank Veres and Luisa Tanno, aka Twice Around, an acoustic guitar and vocal duo from Milford CT. Like many musicians in the world today, we made a CD. You may ask, "Does this CD contain the type of music I like?" Excellent question. Were not sure. We don't know younot yet anyway. We can tell you this. Our family and friends like it. Are they being honest when they tell us this? Who knows? It doesn't matter. They are our family and friends. If they had any say in the matter, we would be the biggest thing the music world has ever known. Since they constitute a very small percentage of the world's population, this has not been the case. So, it looks like we need a few more friends. Family too probably, but that just seems to take more time and effort (like the fact that they always need you to help out when they decide to repaint the bathroom). So maybe you would like to be one of our friends. Or perhaps just a real good acquaintance. But that all hedges on the fact that you don't know if you like our music. Well, the good news is that this site has some song samples for you to listen to. You can actually hear for yourself. Our job is done. We made the best music that we could at that period of time, and we put it out into the world hoping to find some similar souls who might feel the connection to it. Maybe you are one of them. You've come this far so you might as well have a listen. As the group America sang in their song Lonely People: "You never know until you try". \*\*\*That's all we are going to tell you about ourselves right now. If you feel that you want to know more about us, you can visit our web site. There you'll find plenty of details, maybe more than you even wanted. The link to it is located above, just to your left, (unless you are sitting behind your screen that is, then it would be to your right. If you are the type that sits behind your screen, we're

not sure we want you knowing much more about us anyway so you might as well just stay right here on this page).
