

# Responsive Photo Gallery Theme Zt Ence

[DOWNLOAD HERE](#)

is a stunning grid-based Joomla template that tells a story through imagery. The template creates a truly engaging experience by saturating the screen with your beautiful photos. You can easily customize the typography and the colors of each element of the layout, like navigation menu, footer, links, text, background and so on. Create custom galleries by selecting specific categories such as your portfolio, blog, Instagram and Flickr to create either all-in-one galleries or a category specific gallery. The template is also responsive, meaning it will look and work great on mobile or tablet devices as well. If you are an artist looking to showcase your latest work, or if you are a blogger looking to give your visitors a fun new way to browse your latest posts, then ZT Ence is great choice for you! ZT Ence is built in with 2 preset styles: dark and light so can be used for any type of website. With the color schemes, you can easy to build unlimited preset styles. ZT Ence comes with lots of built-in functionality which includes powerful admin panel (allowing you to set any color to elements such as backgrounds, links, text, menu links, etc), responsive slideshow, RTL language, Mega Menus, tons of shortcodes, K2 CCK supported and much more For getting support, you have to create a thread at Single Template Licensed Post your questions in the Comment box, we wont answer it. Compatibility: compatible with Joomla 1.6, 1.7 and Joomla 2.5 Joomla Templates features ZT Ence userguide Powerful admin control panel Built-in 2 preset style Easy to make new skin/style for your shop in the admin panel without knowledge of coding Responsive web design: show up great on both Mac, Windows, iPad, Tablets, iPhones, Android and windows phones
