

# Iron Physiology And Pathophysiology In Humans

[DOWNLOAD HERE](#)

From the contents: PART I CELLULAR IRON METABOLISM (1) Proteins of Iron Homeostasis - Surjit Kaila Srai and Paul Sharp (2) Cellular Iron Physiology Martina U. Muckenthaler and Roland Lill (3) Regulation of Cellular Iron Metabolism in Mammalian Cells - Tracey A. Rouault (4) Concentrating, Storing and Detoxifying Iron: The Ferritins and Hemosiderin - Elizabeth C. Theil PART II IRON PHYSIOLOGY (5) Iron Nutrition Weng-In Leong and Bo Lonnerdal (6) Intestinal Iron Absorption - Andrew T McKie and Robert J Simpson (7) Plasma Iron and Iron Delivery to the Tissues Ross M. Graham, Anita C.G. Chua and Debbie Trinder (8) Iron Salvage Pathways Ann Smith (9) Molecular Regulation of Systemic Iron Metabolism Tomas Ganz and Sophie Vaulont (10) Erythroid Iron Metabolism Prem Ponka and Alex D. Sheftel (11) Iron and the Reticuloendothelial System - Guenter Weiss (12) Iron and the Immune System Hal Drakesmith, Graca Porto and Maria de Sousa PART III DISORDERS OF IRON HOMEOSTASIS -Anemias (13) Iron Deficiency Barry Skikne and Chaim Hershko (14) The Liabilities of Iron Deficiency John L. Beard and Carrie Durwood (15) The Anemia of Inflammation and Chronic Disease Cindy N. Roy (16) Disorders of Red Cell Production and the Iron-Loading Anemias Stefano Rivella PART IV DISORDERS OF IRON HOMEOSTASIS IRON OVERLOAD AND RELATED CONDITIONS (17) The Pathology of Hepatic Iron Overload Yves Deungier and Bruno Turlin (18) Hepatic Pathobiology of Iron Overload Richard G. Ruddell and Grant A Ramm (19) HFE-Associated Hereditary Hemochromatosis Richard Skoien and Lawrie W. Powell (20) Non-HFE Hemochromatosis Daniel F. Wallace and V. Nathan Subramaniam (21) Miscellaneous Iron-Related Disorders Carole Beaumont (22) Iron and Liver Disease Darrell H.G. Crawford, Linda M. Fletcher and Kris V. Kowdley (23) Neuropathology and Iron: Central Nervous System Iron Homeostasis Sarah J. Texel, Xueying Xu, Sokhon Pin and Z. Leah Harris (24) Iron Metabolism in Cancer and Infection - Sergei Nekhai and Victor R. Gorduek PART V CLINICAL DIAGNOSIS AND THERAPY (25) Estimation of Body Iron Stores - Mark Worwood (26) Genetic Testing for Disorders of Iron Homeostasis James C. Barton, Pauline L. Lee and Corwin Q. Edwards (27) The Properties of Therapeutically Useful Iron Chelators Robert C. Hider and Yong Min Ma (28) Clinical Use of Iron Chelators - John B. Porter and Chaim Hershko, PART VI MODEL SYSTEMS FOR STUDYING IRON

HOMEOSTASIS (29) Mammalian Models of Iron Homeostasis Robert S. Britton, Bruce R. Bacon and Robert E. Fleming (30) Yeast Iron Metabolism Caroline C. Philpott (31) Zebrafish Models of Heme Synthesis and Iron Metabolism Paula Goodman Fraenkel EAN/ISBN : 9781603274852 Publisher(s): Springer, Berlin, Humana Press Format: ePub/PDF Author(s): Anderson, Gregory J. - McLaren, Gordon D.
