After a 6 month sojourn performing at The Lorelei we returned to NY and finished up in July of 1998. This album was unbelievably recorded and mixed in only 10 days with minimal attention to details and special attention to just having fun. Recorded live in the studio, keeping with the tradition of "Barely Alive Volume I" and with as few overdubs as humanly possible. (Ever try singing at 10am the morning after a gig the night before?) These "Cover" songs are songs we wish we wrote and if we did wed be dancin naked in Tahiti and not struggling to find Executive Producers to help finance our recording habit!!
