ROCKER CLAY RELEASES SECOND ALBUM OF ORIGINAL MUSIC SALT LAKE CITY , UT -  
DECEMBER 2, 2003 - Local rock musician, Clay, has released his second album of original music. This sophomore effort follows on the heels of his full-length debut, *The Dragon Lies Sleeping* in 2002. The new album is an EP titled *Dragon Evolved* and contains seven original songs and two acoustic re-makes. All of the material on *Dragon Evolved* was written in the last six months and produced at Goldfish Productions in Toronto , Canada . "Songs seem to come in waves," said Clay. "The tracks on *Dragon Evolved* were the last set of the day. They came in too late to be included on *The Dragon Lies Sleeping* , but they represent a clear evolution of those songs. I felt the need to get them out quickly as an extension of the full-length album, so I opted for this EP release. I jumped at the chance to work with some of Canada 's best music producers and the result is a product that I takes my music to the next level."

*Dragon Evolved* exhibits Clay's polished melodies, combined with an alt-rock edge. Since 2002 he has been among a handful of college musicians tapped by Mountain Dew to participate in a series of promotional CDs for the new AMP Energy Drink. In March of 2003, he was awarded \$10,000 to produce a music video for a contest co-sponsored by MTV2 and Mountain Dew. Clay's video - filmed in downtown SLC - used harsh lighting and sharp, saturated colors reminiscent of 1970's action films to showcase the soaring melodies, live radio cuts and soundscape grooves of *The Dragon Lies Sleeping* . Online votes from his fans made him a runner-up in the contest and further established him as a talent to watch in the music industry. Clay is represented by 4Real Artist Management out of Orange County , California . He headlines regularly at Liquid Joe's in SLC and has performed with national bands including Sugar Ray, Dishwalla and Yellow Card.
