5 years and several continents. Tape hiss, guitars, train noises, and drumkit. Racks of gear, and a year of nights spent at 3 a.m. Tape-Op gadgetry, indie rock thumping, and one really great vocal microphone. For your last night on earth, or a new day. 11 MP3 Songs ROCK: Modern Rock, ROCK: Hard Rock Details: Five years in the making... Recorded in four countries on two continents... a pop/noise/math/sex/drugs/rockandroll album to transcend the age of one hit wonders. Secret Services takes the melody and power of the critically acclaimed "Rich Girls" EP even further. From the distorted pop grind of the opener, "Son of Sam", to the swirling metal waltz of "New York", to the romantic electro-beat build of "J", to the deceptively simple "Silverlake" the steadily takes you deeper into an alternate future for rock music. Sure, download a few tracks. But this record is best appreciated at 2 am, when you're too tired to fall asleep, or when you've got 400 miles of open freeway to drive. Put it in, ease the seat back, and press play. Ready? Go.
