A Celtic, country sound splashed with a humorous look at a small Florida fishing town. 7 MP3 Songs  
COUNTRY: Americana, FOLK: Drinking Songs Details: Jimmy McCarthy has taken a small town in Florida and has made it the theme for this CD. He sings about the people and places in Englewood " A small drinking town with a big fishing problem"! Retires, rednecks and a bit of the Irish flow in and out of the tunes on this CD. This is the first partnership of McCarthy with David Buescher. Buescher is a monster fiddle player and sings some back up. Check out his fiddle on the Jigs and reels on this CD. You will find your self singing along with the lines" It don't get any better then this, we'll go drinking all night then go fish"! Jimmy departs from his own songs in "Catholic Boy". If you spent any time in a Catholic school, or knew someone who did, this song will have you in tears laughing! McCarthy has shunned the polished studio sound for a more real product. You can feel more energy that way. This is a great CD for any occasion! Check it out!
