Details: Lindsay Jane Bio Lindsay Jane is that rare artist that comes along from god knows where and blows away everybody she encounters. She is a writer of great depth with the ability to get right at the heart of things with an insightful mind that examines truth and presents it in a simple and most poignant manner. Lindsay Jane's songs move people, there is no way anybody can be indifferent. This isn't background music; her songs hit the target dead on the money. Mitch Podolak, Founder Winnipeg Folk Festival One day, in a land far, far away.. Lindsay Jane was born in Vancouver B.C., Canada. Being raised in a Christian household where listening to popular music was forbidden, didnt stop Lindsay Jane from listening to it. At the tender age of 10, Lindsay stumbled upon her first beer soaked radio on a playground , smuggled it into her home, and turned it on. Berlins Take My breath Away literally did that to Lindsay, and her life was never the same again. In 1999, Lindsay went out with her acoustic guitar and entered The CKUA Alberta songwriting contest and took first place. In June 2002, Lindsay Jane released her debut album Starting Today. That summer, Lindsay embarked on her first tour. By February of 2003, Lindsay was living in Winnipeg as a member of 3 time Juno Nominated band The Wyrld Sisters.. After a year with the band, Lindsay decided to move back to her solo roots, with performances at the CKCU Ottawa Folk Festival, Stan Rogers Folk Festival, Alberta Scene in Ottawa and a hugely successful official showcase at SXSW in Austin TX 2006.
