Details: For many centuries the Psalms have stood at the heart of Christian spiritual formation. They anchor prayer and worship, self-discovery and intimacy with God. The Psalms Project is a musical tool and call to interaction with the Psalms. Released as part of Nate's Masters work in Spiritual Formation, the aim of this CD is to deepen our experience with the Psalms and relationship with God. Below are testimonials of the CD and live performance of Psalms Project. Nate's musical interpretation of the Psalms illuminates the affective meaning of each genre of Psalm from praise to complaint. His presentation brings the Psalms to life and into today's language poetically and musically. There is a little something for everyone and everyone goes away with a different favorite song/Psalm. The Psalms have been put to music by many artists, but none with the variety and edginess of Nate's compositions. This new treatment of the Psalms will challenge you and bless you by encouraging your relationship with God to be genuine and honest rather than conventional and safe. Rev. Thomas Telfer , Fairbanks First United Methodist Church "Nate Macy has a wonderful heart for God, and a great ability to create beautiful music. His modern rendition of the Psalms is excellent. Our students really connected with him because he is genuine and transparent." Dr. James Bryan Smith, Friends University
