Eclectic, yet accessible, electronica spanning numerous genres. 10 MP3 Songs ELECTRONIC: Techno, ELECTRONIC: Ambient Details: Sanctuary is the second CD by Synaxis of the Saints of America. It features an eclectic mix of loop-based electronic compositions ranging from ambient grooves to atmospheric instrumentals to improvisational jazz. All the tracks were realized in Apple's GarageBand and incorporate both Jam Pack and third party loops. About the Composer: David Ozab began playing guitar at sixteen. He played and sang in the bands Spectre, Rosewater Foundation, and Farpoint before deciding to pursue a full-time career as a "serious" composer. His compositions have been played in festivals both across the country and abroad. A CD of his computer music (Tempo Ficta) is also available through CD Baby.
