Wonderful Country/Rock Songs done in honor of Woman and the female side of life. 10 MP3 Songs

COUNTRY: Country Folk, WORLD: Native American Details: In creating this CD I was moved towards the female side of life. The creator side of us as well as the warrior, struggling to keep it all together. I do this in honor of all the women who have stepped beyond the Home Maker Labeling and are fulfilling their dreams and are working on healing themselves. For upon healing ourselves we can turn around and heal our families, our children, our mates and in turn our Earth Mother. I also do this in honor of the wonderful men that are in touch with their feminin side and are walking along side their woman lending a loving hand. You are our heroes for it takes wisdom and strength. PRAIRIE MOTHER - Is about our Mother Buffalo that gave it all and still is. CIRCLE OF FOUR - Is about me and my 3 sisters growing up in New Mexico working the fields, raising each other. SO MUCH THERE - Pay attention to the small things around you. DREAMING WOMAN - The teacher and helper that comes in our dream time. WANTING YOU - A song that I wrote to my daughter when she was 17 and struggling to let her know no matter what she did, I loved her and wanted her WHISPERS OF THE WIND - I believe the wind carries messages from spirit that we can hear if we sit and listen. BUFFALO CRIES - The Lakota have a saying that the most woeful sound you will hear is a buffalo crying for her calf. It touches on todays society the missing children, lost souls, etc. ALWAYS BEYOND - I believe in reincarnation and I believe that we reconnect with loved ones be it Mates, Mothers, Fathers, Children, etc. CIRCLE IS OPEN - Circle is open for everyone I invite you to join the circlce of light and burn your sage.
