The Brilliant Support Activities series contains photocopiable activities for use with slower learners or pupils with learning difficulties at Key Stage 2. The books introduce one concept per sheet, using simple language and clear, black line illustrations making them easy to read and understand. Understanding Materials contains 42 photocopiable sheets to help pupils understand the properties of materials through investigation. They reinforce the methods of scientific enquiry by requiring pupils to plan, carry out practical activities, consider evidence, and present ideas and conclusions. They focus on grouping and classifying materials, changing materials, and separating mixtures of materials. Other concepts such as forces, heat and magnetism are included within the context of understanding the properties of materials.
