Increase Your Upsells and Residual Income with Resell Rights Tired of hearing the same old write an eBook and start an affiliate program advice? It is about time you try something else better and more productive, because in 5 minutes, you are going to... Discover How YOU Can Increase Your eBook Upsells, Your Own Expert Status, Your Own Quality Leads, And Residual Income Explosively Just By Leveraging on Resell Rights! Find Out Why YOU Are Cheating Yourself Out Of A Better Solution And How You Can Use The Leverage Of Resell Rights In Your Favor And Be The Next Best-Selling Author Rather Than Just A Best-Writing Author! Dear eBook Author, Are you tired of hearing the same old lines like: Write an eBook, start an affiliate program, and get your affiliate slaves to sell for you? Well actually, in several instances, most affiliates are really slaves. Most of them are lazy. Most of them having poor self-motivation. Most of them cant do things right. Most of them hardly earn anything, and you know what that means? You dont get your share of the money, too, if they dont perform well! Dont get me wrong, though. There ARE super affiliates out there whom you wish would join your affiliate program. And there is absolutely nothing wrong starting an affiliate program to sell your eBook in the first place. But seriously,

I strongly feel you are cheating yourself of a better solution. You have probably written an eBook which you are planning to sell in the Internet marketplace. You have carefully researched the market and learned that there is a huge demand for the information you present in your digital eBook. Or you have already tried selling your eBook, but with little success. You may have tried selling on your own or wonder why your affiliates are not working as hard as you thought they should be. And right now, you are contemplating a better solution. Hey, ever thought of leveraging your marketing efforts on resellers instead of affiliates? Reseller vs. Affiliate In case you are still new to Resell Rights, resellers are individuals who resell digital products with Resell Rights and keep all the profits. That is one feature that separates the reseller from an affiliate, since the reseller has access to the product together with its acquired rights while the affiliate acts mainly as a referrer without having the benefit of keeping the product unless he purchases it himself. So, you are probably wondering: why resellers and not affiliates? After all, there are product authors who are successful in sales simply by creating an affiliate program for all affiliates to join and market his product for a commission. Consider the following: Overall, resellers are usually more motivated than affiliates. Why? That is because a reseller has to invest an amount of money in acquiring a product with Resell Rights. That is his money (and probably hard-earned at that) on the table and he is more motivated to cover investment quick and then profit from it. On the contrary, there is no joining fee in becoming an affiliate. This is probably the reason why most affiliates are not as motivated as resellers as they have never invested any money at all in becoming one. Resellers work independently. A reseller sets up his or her own page or web site to start selling the product. If the reseller is at fault, his business would be affected and not yours. Besides, overall resellers are more serious about their business than most affiliate marketing novices. If you recruit just any Tom, Dick, and Harry into your affiliate program, on the other hand, dont be surprised if you see an affiliate moron of yours spamming your favorite forum which you frequent and if affiliate spamming gets out of hand, it wont be long until you have your first - and last - online date with your domain name provider just before he shuts your online business down for good. Resell Rights - A Powerful Online Leverage? The Internet Marketing gospel delivered, is there any more doubt to using Resell Rights? Wait, maybe there are. Leverage is a very powerful word in business of any kind. But like a kitchen knife, it can be used in your favor - or even against you. If you have been online for some time, I am very sure that you have come across quite a number of Resell Rights products. They can come in the form of eBooks or even software, scripts and

audio/video. But they all sure have Resell Rights conveyed. And if you hang out often with other Internet Marketers, some of them would loathe Resell Rights like mud on the ground. In other words, most Resell Rights products out there are garbage that should belong in the Rubbish Bin folder! But not ALL of them. Not YOUR eBook, you don't want that to happen! Resell Rights is a great leverage you will do well to use where increasing your upfront sales, residual income, and even your expert status are concerned. But like any other forms of power, it can be used in your favor, or even against you. More often than not, most Resell Rights eBook authors use Resell Rights against themselves. Small wonder why most Resell Rights products are labeled junk! While they don't necessarily lose their fingers to a kitchen knife or get backfired by their pistols they keep in the cupboard, not making any money and wasting time are very, very expensive. Also, think about the following: Why should resellers choose to resell YOUR eBook in the first place? Why should you convey Resell Rights to your eBook when resellers get to keep 100 of the profits for every copy of your eBook sold since you won't be getting a single cent out of it? How are you going to earn residual income by conveying Resell Rights to your eBook? I have hazard a guess these are among the top questions you have in mind right now, and that's where I come in with... Announcing...
