Acoustic Rock ... for real. "Guthrie-Dylan veins with an Ian Anderson delivery" ... passionate vocals and acoustic guitar ... occasional harmonica ... overdubbed dulcimers and harmonies. 10 MP3 Songs ROCK: Folk Rock, ROCK: Acoustic Details: Alan's grandfather was a street preacher with a powerful and passionate message about Armageddon, the end of time and the Second Coming of Christ. Although he died when Alan was only nine years old, he left an indelible impression -- knowing the love his grandfather had for God's Word initiated Horvath's personal search from a very early point in his life ... a personal search that continues to grow and mature in Christ. Horvath has penned songs that directly speak of his love for spiritual matters ever since he began composing ... he has studied many religions and theologies over the years and has spent time in seminary. His passion for the Holy Scriptures has been a steady source of inspiration and study ever since he was old enough to read ... but this is his first CD that reveals his faith with such a pointed collection of songs. "I've never been more in love with the Good News ... the message that's presented in the New Testament and foreshadowed in the Old Testament ... and the prophecies about the Second Coming as found in the books of Daniel and Revelation. The significance of where we sit historically and prophetically today, is an ever-present concern of mine. Every song I've ever written reveals these convictions ... but here, on this CD, are the more direct statements I'm making about my personal relationship with Our Maker." Alan
