A sonic merge of Hip-Hop beats, Trip-Hop tempos, Chill-Out soundscapes, and futuristic grooves. 9 MP3 Songs ELECTRONIC: Down Tempo, ELECTRONIC: Trip Hop Details: Ever since 1998, entrepreneur and independent musical visionary, DeRon, has single-handedly owned and operated the Palisade Hills record label. After recording various projects under a mixture of monikers such as Azariah, Empathy In Love, Modern Kitten Theory, DJ Iceberg, Cure for Cancer, and a host of others, DeRon is finally ready to take off his mask and reveal his true talents with his latest project, "The Ministry of You". Over the years, Palisade Hills has grown into one of the most vital on-line musical alliances around. Recorded in only a matter of months, "The Ministry of You" is a project that will leave his congregation in astonishment. "From the first note to the last, "The Ministry of You" is nothing short of groundbreaking" raves writer Tracy Carter. The comparisons here are evident and felt throughout the album. Ranging from that of the leaders of the early electronic persuasion, Kraftwerk, on the hit single "When I Want Romance", to the influence of the modern-day artistry of Massive Attack, or possibly early Bjrk, on tracks like "Little Blue Riddles" and "I Want To Move To London". The feedback has been overwhelmingly positive. Overall, DeRon offers an assortment of elements from the modern electronic scene, hip-hop, traditional Oriental music, and even New Age. ### \*This album also features the bonus track "Ocean Music".
