

Mp3 Emerald House - Take Two

[DOWNLOAD HERE](#)

Real American music centered around vocals and acoustic guitar, superb songwriting and mixtures of jazz, pop, light rock and country that work (think James Taylor meets Dave Matthews with a touch of Steely Dan). 13 MP3 Songs POP: Folkly Pop, JAZZ: Smooth Jazz Details: Okay, folks, I'll make you a deal. Buy the CD. Bring it with you on your next trip to Hawaii, and you can take your pick: 1. I'll take you on a day hike up into our gorgeous Koolau mountain range or around the stunning seaside pali (cliffs) by Makapuu or any number of way cool places in paradise. A bunch of us have been doing this every Thursday for over four years and one of my songs, "High Places" talks about our group, the Off The Chart Hike Club. 2. I'll give you a windsurfing lesson (I'm pretty darn good at it). The next album will probably include a windsurfing song. 3. I'll sing you a song (or two or ten) at one of our gigs. I probably won't become a platinum-selling artist through CD Baby, but this is a cool way to make some friends beginning with my music. I hope you're one of them. By the way, check out our little website. I'm a trivia nut...we even employ trivia in our live shows...and our site has questions and info change 'bout every week. Her unique voice is unforgettable. Monika has been an active recording artist. She first recorded with Bruddah Waltah on the Surf Sessions compilation disc.
