

Mp3 Irish Leo - Wicked Cruel Chicken

Eclectic, folksy alternapop with female vocals. Basic pop songs inspired by ska, classic pop, jazz, and traditional ethnic music. 12 MP3 Songs POP: Folky Pop, FOLK: Folk Pop Details: "Lead singer Elisha Frontz has one of the prettiest voices in Dayton; her delivery is flawless. The rest of the band is equally talented, wrapping Frontz's voice in tasty accompaniment. What makes their debut such an enjoyable listen is the melding of different styles (Irish, rock, folk, etc) and the use of different instruments (mandolin, accordion, Hammond B-3 organ). It's the same band from track to track, but it never gets repetitious. "About a Boy" starts as a quiet little pop tune and then starts rocking. Another standout is "Fall", which reads as a note to a lost friend. Between the excellent production, playing and songs, this does not sound like a local CD." -- DaytonRocksCD Review
