Details: Jerry Hester and Gary Nelson are west coast singer-songwriter-musicians best known for singing and playing their music at various intimate venues in and around southern California. "Our music takes on many genres, Pop, Light Rock, Country Rock, Americana, Folk, what have you, cause we just write and play music that we like, with no particular style in mind" says Jerry. "That's why this music isn't great stuff, probably it's just mediocre" says Gary. But, anyway, if you'd like some musical variety in your life, from fast moving, rough and tumble "Rattlesnake Hyde" to nostalgic and tender "Lace and White Satin", from a more moody and jazzy "Where is the Light" to rocking "This Big City", you're sure to like listening to this collection of original tunes.
