Her debut CD called A Touch of Your Grace uses a mixture of classical aria vocals and orchestra pieces and throws in pop riffs and over tones to give a unique sound that is touching to your ears, your heart and your soul. Unbelievable still is that all the songs on the CD are written by Klein herself, except for the classic cover of "Amazing Grace." The title song "A Touch Of Your Grace" is very upbeat and shows off the writing and vocal talents of Kara Klein as she asks God to mold us and change us like He did the loaves and fishes or the water into wine. It's songs like "Rescue Me" that let you know where Klein's head is as a youth in today's world. All the pressures of life are weighing upon you and you must cry out to God to be rescued from it. The string music used on this song is awesome. Knowing what youth are going through is something Klein knows about and she is a big supporter of chastity. In fact, her song "Drawing Near To Me" talks about her future husband and how they should wait for marriage before being intimate and help each other draw closer to God. Falling in love with Jesus is the theme of the song "Longing To Love You." A Touch of Your Grace is an excellent CD--can't wait to hear more from Kara Klein Bio Information Kara Christine Klein was born on Christmas Eve in New Orleans, Louisiana in 1985.
