An electronica-funk fusion that will pick you up and make you get down. 5 MP3 Songs ELECTRONIC: Electronica, ROCK: Jam-band Show all album songs: KB Noise Songs Details: kb noise, formally Boss Tweed, together since June 2006, was formed from an interesting set of circumstances. Bassist Mark Carson, and drummer Dave Cipriani had been playing together for years, yet neither had a serious project at the time. It wasn't until mutual friend and guitarist Brian Lynch, got offered a gig (he had no band at the time) that the three friends got together. Rounding out the sound was keyboardist Sam Hollis. However, after a departure from Sam in early 2007, kb noise recruited the help of Aaron Radder to fully round out the sonic landscape. If you haven't seen them yet get yourself to a show, you will not be let down.
