World Songs Details: Kerry was born and raised in Bloomington, Minnesota. Her parents provided her

with lessons at the age of six and quickly discovered how much she loved to play the piano! Growing up,

Kerry volunteered and performed around the Twin Cities and realized that playing the piano was what she

was meant to do with her future. Kerry attended the University of Northern Iowa (UNI) where she majored

in Piano and minored in Business. Since graduating, Kerry has performed and instructed piano for eleven

years. In 2004 Kerry was asked to participate in an art exhibit for Easter. She composed a piano solo

piece for this and enjoyed the process with all the frustrations and rewards so much that she began

arranging other pieces. She has spent countless hours arranging, practicing, and working to get each

song just right. She chose Christmas for her theme as it is her favorite time of the year. She loves all the

seasons in Minnesota but especially looks forward to the great joy and happiness that comes with the

holiday season. "Joy to the World" is Kerry's first CD and it will fill your home with Christmas spirit. It has

12 wonderful Christmas songs arranged by Kerry in a unique and very special way. You will fall in love

with her music as it is a joy to sit back and relax to.
