Acoustic Orientated Alternative Rock 11 MP3 Songs ROCK: Acoustic, FOLK: Power-folk Details: Leslie Rich is the Belfast singer/songwriter force behind the beautifully energetic and versatile Rocket Soul Choir. The Written Lie was written and recorded over 2001 between his home studio in Belfast, Novatech Studios in Glengormley and the band studio in Minneapolis. After years of touring in America, Scandinavia and the United Kingdom and Ireland he relocated to Minneapolis in December 2004. A new album is being recorded and his first tour as a resident alien will be across the Midwest this spring. Of the \$13 price tag almost all goes to Leslie who is not backed by any major management, promotion or record company. His thanks goes to you for helping keep himself, his wife and his music afloat and alive while finding a place for his music to breathe in amongst the clamour of everyone else. Some copies of his first studio album, "Geeklove" are still available, but MP3's can be attained by sending a tear-stained e-mail to the web site. Keep independent music alive! Some of Leslie's friends (If you can find them) are Joan Coffey, Susan Enan and Duke Special - They are worth checking out.
