

Mp3 Loam - Hollowing Costumes

[DOWNLOAD HERE](#)

Brooding, guitar-driven indie rock laden with addictive, emotional hooks that resonate long after the final track. 10 MP3 Songs ROCK: Hard Rock, ROCK: Modern Rock Details: Songs from Loam's debut record, "Hollowing Costumes," are dotted with footprints from many rock influences(Guided By Voices, Nirvana, REM, Breeders, et al), yet their sound remains singularly unique, combining a mix of rocking adrenaline shots, brooding introspection, and melodious unpredictability into a striking record. In addition to tunesmithing the rock, Loam has played a pivotal role in co-founding -along side mogul M.C. Hammer- several charitable institutions specializing in subversive takeovers of the cottage cheese industry. Putrid scents after prolonged periods of non-refrigeration will not be tolerated any longer. Do you hear us, you scumbag purveyors of odor-prone cheese?! You have stolen your last olfactory coup! Loam will soon be accepting applications in their front office for the position of "Stationary Human Nerf-Football Peltee." Qualifications include (and are not limited to): ability to stand still for hours at a time, aptitude for swallowing dignity, and an exquisite hatred for proactive litigation.
