Production Details: One afternoon, I listened to his music. His groove, sound, and dynamics. The way he used the space between the notes. I loved the choices that he made on the album called "Heavier Things". David LaBruyere. He plays bass with John Mayer. When he kindly agreed to play music with me, that became the foundation of this album. I was so inspired, I wrote in the zone. David invited Michael Chaves and Don Heffington for the session. Michael invited Victor Indrizzo. That's how the rhythm section was born. Two of my long time engineers, Brian Reeves mixed, Brian "Big Bass" Gardner mastered the tracks. I thank everyone who helped me create this album. Impossible is possible when you're inspired. So here it is. I proudly present my brand new album "Wonderful People" to you Sep. 2004 Mari Iijima
